Karnataka Law Society's Viswanath Rao Institute of Technology

08/2019 - 07/2023   *Haliyal,karnataka,India*

PUC
JSS Sri Manjunath Pre University College

06/2017 - 03/2019   *Dharwad,karnataka,India*

PROJECTS

3D-printer using ArduinoMega and Ramps 1.4
- Selected for KSCST, 46th series of Student Project Programme (SPP) held during 11-12th August 2023 at Alva's Institute of Engineering and Technology,Moodubidire.
- Worked and involved in utilizing the Arduino Mega microcontroller board in conjunction with the RAMPS 1.4 shield to create a fully functional 3D printing machine.
- The aim was to design and build a cost-effective and reliable printer that could produce high-quality prints with precision and accuracy.

E-commerce Shopping Cart list ⬈
- The E-commerce Shopping Cart System project aimed to develop a robust and user-friendly online shopping platform that allows customers to browse, select, and purchase products conveniently.

Interactive Digital Restaurant Menu Card ⬈
- Created a user-friendly graphical interface that replicated the look and feel of a traditional menu card.
- Designed to be visually appealing, easy to navigate, and accessible on tablets or interactive displays.
